

## What You Should Know About Rehabilitation

- An estimated 13% of the American public and half of those over the age of 75 need some form of rehabilitation.
- More than 80% of all patients receiving rehabilitation return to work, school, or active retirement.
- Studies show that for every \$1.00 spent in rehabilitation, approximately \$10-\$20 is saved in future medical costs.

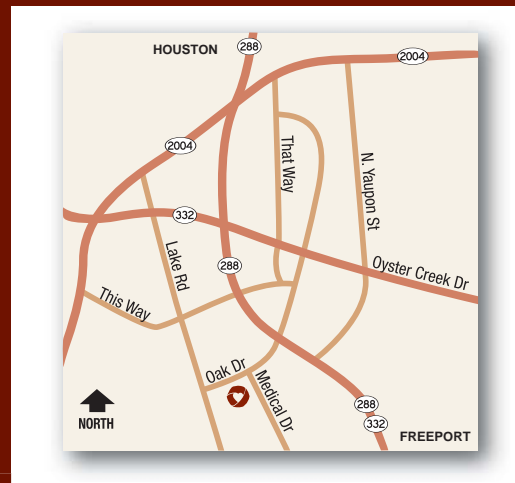

## Rehabilitation Benefits

- Individualized treatment plans
- Patient-centered goal setting
- Hospital-based
- Outcome-oriented
- Interdisciplinary approach
- Quality services and therapy
- Certified rehabilitation professionals
- Generally covered by Medicare as well as many private insurance companies.

- Stroke Rehabilitation
- Rehabilitation Nursing
- Skilled Nursing
- Social Workers
- Psychologists
- Orthotics/prosthetics Consultants

**We offer comprehensive rehabilitation services that utilize up-to-date research and individualized treatment programs.**

### Conditions We Treat

- Cerebral vascular accidents
- Hip fractures
- Polyarthrititis, rheumatoid arthritis, and osteoarthritis
- Amputation
- Neuromuscular disease
- Neurological disorders
- Musculoskeletal disorders
- Pulmonary disorders
- Chronic pain
- Cardiovascular diseases

### Admission Criteria

Although we would like to welcome everyone to the Inpatient Rehabilitation Center, patients must have the need for 24-hour rehabilitation nursing and the need for two or more skilled rehab therapies including Physical Therapy, Occupational Therapy, or Speech-Language Pathology. Patients should also have the expectation of practical improvement with the ability to participate in 3 hours of therapy per day.

**Committed to provide cost-effective quality care to the communities we serve.**

Our state of the art facility has 13 private rooms with cable television, a personal phone line, and wheelchair accessible restrooms. The rehabilitation area is a large gym with four rehab beds, parallel bars, free weights, and therabands. In addition, a mock apartment with a washer/dryer, kitchen, and walk-in bathroom is provided as a “final exam” for those returning to their home and community settings. As an extra amenity for our patients, we have a personal dining area where each meal is planned by certified dietitians.

### Patients may be referred by

- Physicians
- Discharge Planners
- Social Services Professionals
- Case Managers
- Allied Health Professionals
- Third-Party Payors
- Family, Friends or Self
